

The EAAP distinguishes 3 types of membership. Before applying for any of them, you must specify the type of membership you are interested in.

The membership categories are:

Full Membership. This type of membership is suitable for a person or small organization. The full membership provides you with certificate of membership, free ticket for one seminar per year and access to all shared materials (EAAP cloud library). The membership fee for full membership is **30 euro per year**.

Partnering Membership. This membership is based on reciprocity and common interest for both organizations. The standard fee for partnering membership is **160 euro per year**. However, each application will be considered individually and in the case of organizations whose activities bring added value to EAAP members, this fee can be reduced or even avoided.

Honorary Membership. The Honorary members are people with significant contributions in the field of psychology or related sciences. Honorary membership is awarded by the governing body of EAAP and **honorary members do not owe a membership fee**.

To receive your application form please send an email to Info@eaap-eu.com with subject "membership".
